Continuance:

Continuance of the Original Pole Hearing Petititon for Joint or Identical Pole Locations of August 13, 2014:

The Pole Hearing was continued due to the lack of materials pertaining to three petitions. Joint Owned Pole Petitions Number 16631721 extending 3 phase feeder 1019w1 along Monroe Hill Rd. and converting are to 13.8 kv. were reviewed.

Following review and discussion Deb Crowningshield was concerned about a particular pole location. It was agreed that Engineers Groshev and Bravetti would visit the site to discuss the specific pole in question. Once the permits were in place, the work would go out to bid including tree trimming and pole installation. It was noted that the Planning Board had yet to review tree trimming plans.

Chair Wilson stated that following the Engineers' site visit and receipt of confirmation that Ms. Crowningshield was in accordance with the Engineer's revised plans, the Select Board would meet and approve the pole locations since there were no objections raised from abutters.

Continuance:
Seeing no further business, at 7:28 pm Chair Wilson made a motion to continue the Hearing at a yet to be determined date to vote on the matter. The motion, seconded by Vice-Chair Gleason, was unanimously accepted. (3/0/0)

Respectfully Submitted,
Janice Boudreau
