Board of Health
Meeting Minutes
August 19, 1986

Present: Ellen Foberg, George Riggan, Tim Snyder

The meeting was called to order at 9:46 P.M.

Mr. Riggan reported that two members of the Heath Landfill Committee approached him concerning the possibility of developing an option for hauling their domestic garbage to our transfer station. Chairman Foberg will invite them to attend one of our meetings to discuss the matter.

It was agreed that the Board of Health regulation concerning parameters for "potable" water shall remain at:

Total Coliform	1/100 mls
Fecal Coliform	-0-

Although ther are several other parameters we would like included, we do not want to burden homeowner's with additional expense. The above two parameters are the only ones that specifically pertain to health endangerment in Rowe at this time. This regulation will be added to the updated By-Laws soon to be published.

It was noted that the Frost Well Drillers have now sent us copies of all well logs for wells they have drilled in Rowe.

A motion was made to adjourn the meeting at 10:10 P.M. The motion carried unanimously.

Respectfully submitted,
Ellen L. Foberg

Approved:

George A. Riggan

Timothy C. Snyder
