Board of Health
Meeting Minutes
June 2, 1987

Present: Ellen Foberg, George Riggan, Melissa Quinn
Absent: Marion Boggs

The meeting was called to order at 9:15 P.M.

Mr. Boggs reported that the Conservation Commission had examined the property of Edward McCloud, (Map 11, Lot 116) and as a result of this inspection had sent him a notice of violation of the Wetlands Act, (G.L. c.131, S.40).

The Conservation Commission also felt that the logging being done off of Tunnel Road by New England Power Company was resulting in damage to the environment.

Mr. Boggs expressed the Commission's concern over the location of the stump dump and the violations that have taken place there. The Commission feels that Pelham Brook is threatened with possible pollution due to the proximity of the dump. The Board agreed to look into the matter of the stump dump.

Signs were received for the Refuse Garden specifying placement of refuse. The Chairman will contact the Highway Superintendent about installation.

A Disposal Works Construction Permit was received for Rowe Camp and Conference Center and was approved and signed by the Board.

Percolation test results were given for June 27th and 29th. (attached)

It was noted that there have been requests from citizens to

pave the drive at the Refuse Garden. In consulting with the Highway Superintendent, it was his opinion that there is too much fill under the drive to have an adequate base on which to place paving.

In response to a question from Jeff Frey, (Rowe Camp and Conference Center), Mrs. Foberg called the State Plumbing Inspector and was informed that the plumbing for the new camp infirmary must consist of either cast iron or copper pipe in order to conform to regulations for infirmaries.

The meeting adjourned at 10:45 P.M.

Respectfully submitted,
Melissa Quinn, Clerk

Approved:

Ellen L. Foberg
