Board of Health
Meeting Minutes
June 14, 1988

Present: Ellen Foberg, George Riggan, Marion Boggs, Melissa Quinn

The meeting was called to order at 9:50 P.M.

Mrs. Foberg reported that she and Mr. Riggan had inspected the site of the percolation test performed on property owned by Edward Pepyne on Zoar Road. The found the site of the test to measure sixty-nine feet from the edge of the road. Upon consultation with Town Counsel, it was learned that measurements are normally taken from the center line of the road, which would place the test site at least as far as the seventy-five feet by-law requires.

By consensus the Board will wait thirty (30) days before taking further action on the Rice camp (Hazelton Road) to allow the tenant time to vacate the property.

The Chairman reported that she had been requested to investigate the possibility of paving the drive at the Refuse Garden. It was noted that this question had been raised in the past, and the Highway Superintendent (Pete Brown) had recommended against it. There would need to be a deep base laid before paving and the subsurface material in that location would make digging for this base unwise.

Mrs. Foberg will consult with Jim Williams to see if, in his opinion, a curtain drain can be installed on the property of William Foster (Zoar Road) as per the stipulation made by the Board in a letter to Mr. Foster on June 8, 1988.

A letter was received form Molly Scott regarding the charges for a second test performed on her property on Davis Mine Road. A letter was sent to her explaining that the town pays the sanitarians fee for the first test, and subsequent charges must be born by the property owner. It further explained that the site for the second test which did not conform to the by-laws, was chosen by the sanitarian and it was his responsibility to acquaint himself with these by-laws.

The meeting adjourned at 10:20 P.M.

Respectfully submitted,
Melissa S. Quinn, Clerk
