Re: Drainage Repair - Zoar Road

Dear Mr. Foster:

This letter will confirm our conversation on Wednesday, July 27, 1988 regarding the surface drainage problem located on the north side of your home.

Involved in the survey of the situation were Ellen Foberg, George Piggon, John Brewitt, Jim Williams & yourself.

It was agreed as follows:

1. Backfill the present ditches with existing fill;

2. Install an adequate sized tight pipe from the outlet located on the south side of Lehrs property to the old catchbasin half way down the hill;

3. From that point, continue the pipe installation to a Town catchbasin on Zoar Road.

It is understood that exploratory work will be necessary to determine whether there is an existing pipe from behind property line to the existing catchbasin.

If any substantial change in plans are necessary, it would be appreciated if the Selectmen were notified.

Very truly yours,

Board of Selectmen
Rowe, Ma.
