end of report

Board of Health
Meeting Minutes
December 18, 1990

Present: James O'Brien, George Riggan, Ellen Foberg
Melissa Quinn

The meeting was called to order at 7:15 P.M.

Also present was William Foster, Building Inspector, for a discussion for receiving copies of well logs for newly drilled wells in town. It was voted unanimously to add to the Board of Health regulations (Rowe Town By-Laws, Rules & Regulations, Page 23, under "Wells and Potable Water) the following: "If the water source is a newly drilled well, the owner must submit to the Building Inspector the Board of Health copy of the Water Well Completion Report furnished by a well driller licensed in the Commonwealth of Massachusetts."

The Building Inspector also reported that he would like to require that a plot plan, (preferably drawn by a certified engineer), be included with each building permit application for new construction. This plot plan should show the location of the dwelling, the well and the septic system. Mr. Foster will check Title V to ascertain if this is a requirement.

Information concerning hazardous materials stored and/or in use at Sherman Station and Bear Swamp/Upper Switchyard by New England Power Company was received for file, in accordance with state and federal law.

The meeting adjourned at 8:15 P.M.

Respectfully submitted,
Melissa S. Quinn, Clerk
