Report of the Selectmen

To The Townspeople of Rowe:

It is time once again for the Selectboard to make its annual report. We feel that it has been a good year for the town, but if we include the winter of 1993/1994 some people may not agree.

One of the first major votes taken by the Board this year was to accept the "Early Retirement Incentive Plan", (as approved by the May 1993 Annual Town Meeting) for Mr. Carroll Stowe. This reduced the Highway Department to four people. This should result in a substantial savings to the Town over the coming year, and it allowed Carroll to start enjoying retirement a few years earlier than he expected. Carroll did offer at his retirement to make himself available to the Town for snowplowing, on a "call-in" basis, just in case we had one of those old fashioned winters. Needless to say he was called on several occasions this winter. Carroll's retirement party (organized by Carroll's friends and funded by ticket sales) took the place of the traditional Old Home Day and a good time was had by all.

At the end of June, the Board began discussions of the possibility of having the Massachusetts State Police take over the Town's dispatching for police, fire and medical emergencies. This was offered by the State Police in preparation for the new emergency E 911 system that is expected to be in operation in the Franklin County area sometime in early 1996. After many meetings and much discussion, the Board was unanimous in its decision to go with the State Police. We all felt that in the long run this would be in the best interest of the Town. A contract was signed with the State Police that states, in part, that they will be responsible for our emergency dispatching, at no cost to the Town, for the next five years. This switch from Franklin County Dispatch to State Police Dispatch will result in a savings to the Town of about six thousand dollars per year over the next five years, and better prepare us for the new emergency E 911 system.

The Highway Department continues to do an excellent job maintaining our roads and the Highway Department equipment. We are sure all the residents of Rowe would like to join us in a thanks for a job well done. One of the two major projects completed by the crew this year was the drilling and blasting of a large section of ledge on Tatro Road which will allow this section of road to be better maintained. This eliminated a very troublesome spot for the snowplows. Secondly, last fall the two culverts that allow County Brook to flow under Zoar Road had to be replaced. Both of these steel culverts had been in place for over fifty years and were in need of replacement. This was a major project but due to pre-planning and preparation by the crew, the job was started on a Monday morning and completed by the end of the workday on Friday. The two old culverts were replaced by one eight foot concrete culvert which should last for

a hundred years or more.

The Board would like to extend thanks to all the elected and appointed officials of the Town for working with us in conducting the day-to-day business of the Town. We would like to give a special thanks to Norma Brown and June Brown for unselfishly donating their time to help keep the Town Hall running while our Administrative Assistant Melissa Quinn was on medical leave. We would also like to welcome her back, she was missed.

Respectfully submitted,
Leonard J. Laffond, Chairman
Ellen L. Foberg
James E. O'Brien

Culvert Project

Official Results

Special Town Meeting

May 10, 1993

Meeting was held May 10, 1993 at 6:45 P.M. at the Rowe Town Hall. Quorum present. Meeting was called to order by Moderator Karl Jurentkuff. Warrant was posted April 26, 1993.

ARTICLE 1: Motion was made and seconded to authorize the Selectmen to enter into an agreement with the Massachusetts Highway Department to **accept and expend** the sum of **\$30,188.00** made available under the provisions of Chapter 133 Acts of 1992.

ORAL UNANIMOUS AFFIRMATIVE VOTE

ARTICLE 2: Motion was made and seconded to **TRANSFER** the sum of **\$1,000.00** from the FY 1993 Park Department Wage account to the FY 1993 Park Department Operations account.

ORAL UNANIMOUS AFFIRMATIVE VOTE

ORAL UNANIMOUS AFFIRMATIVE VOTE

ARTICLE 25: Motion was made and seconded to authorize the Board of Selectmen to negotiate a contract with the Board of Selectmen of the Town of Charlemont to salt, sand and plow approximately 4.3 miles (or any portion thereof) of Zoar Road and Rowe Road lying within the Town of Charlemont, for one (1) winter season beginning November 1, 1993, in exchange for Charlemont’s salting, sanding and plowing of Tatro Road in Rowe during the same winter season.

SHOW OF HANDS VOTE

29 YES 6 NO

ARTICLE 26: A resolution was proposed that in the event that Carroll Stowe retires, that the Town Meeting of Rowe would recognize his long and dedicated service to the Town, and wishes him well in his retirement.

ORAL UNANIMOUS AFFIRMATIVE VOTE

The meeting adjourned at 9:22 P.M.

A true copy.

Attest: L. Norma Brown, Town Clerk

Animal Inspector

The following report is the listing of animals in the Town of Rowe for 1993.

All of the animals in town appeared to be very well taken care of and in very good shape overall.

There are:

	GRADE	PUREBRED
Dairy Cows over two years	2	1
Dairy Heifers one to two years	4	5
Dairy Calves under one year	8	1

Number of Dairy Herds: 2

Beef Cows over two years	1	15
Beef Heifers one to 2 years		7
Beef Calves under one year		8
Beef Bulls		1
Beef Steers		3

Number of Beef Herds: 2

Horses (work and saddle)	17
Ponies	6
Goats	15
Sheep	5
Small Mules	1
Poultry Flocks	4

Respectfully submitted,
Carol F. Lively
Inspector of Animals

Arts Lottery Council

No report received.

Board of Assessors

We began 1993 with one seat on the Board vacant, and no Assessor's Clerk. By February, an Assessor's Clerk was hired and we were successful in filling the Assessor's position. David Scrivens was appointed and then was elected to the remainder of Fred Lehr's term, which was 2 years.

This was a revaluation year (FY94) and the process to select a consulting firm to help us in this huge task was initiated. Since we had purchased a computer system from Patriot Properties in August, 1992, it was decided to have our "reval" done by the same company. We did ask for quotes from three companies, and selected Patriot.

Forms of List were sent to all property owners who were subject to Personal Property tax. Surprisingly, a majority of these were returned promptly.

During a "reval" year we have a lot of interaction with the State. They assign a person to coordinate all reporting activities and explain all of the legal deadlines to be met. This year we met all of the requirements and felt we were ready to be certified in September. The State's contact person informed us she could not approve the method we used to value the land surrounding Yankee's plant. Unless we changed our formula for this industrial/residential land, the State would not give us certification, and thus, we would not be able to set our tax rate. It took the State two months (September to November) to give us our pre-certification. At that time we found out that the "Education Reform Act" passed earlier in 1993 would also impede our progress in setting the tax rate. The talks and meetings generated by this situation caused the rate setting to be delayed another two months. The Department of Revenue could not approve our tax rate without the Department of Education also giving their OK. A first for everyone involved. This is some of the background information as to the lateness of the tax bills this year.

Once we received final approval and certification from the State (and Department of Education), we were able to print our bills in-house, via the new computer system and printer. It was a relief not to have to send our bills out for printing, thus delaying them for another few weeks.

When the taxpayers received their bills, most of them were pleasantly surprised to discover that the rate per thousand had dropped and their tax bills were lower than expected. (Residential rate was \$5.26 per thousand; Commercial, Industrial & Personal Property rate was \$9.47 per thousand.) This was a very pleasant situation, which was brought about by the Finance Committee's insistence that every department reduce their budgets. And also to the voters who attended Town Meeting and voted to keep our expenses to a minimum

during the phase-out of Yankee. The voters were presented with a very basic budget package and listened carefully to the warnings of rising tax bills if additional monies were raised for superfluous items.

Yankee Atomic Electric Company's total valuation dropped approximately 12 million dollars during 1993, however the new Monroe Dam was added to our tax rolls this year, adding approximately 6 million dollars of taxable value. Rowe can claim only a portion of the total value.

There is a dire need in this town for updated Assessors' Tax Maps. We requested quotes from several mapping firms and it is going to be an expensive proposition to redo them. However, it is more expensive to the town if the incorrect maps are used for determining ownership, especially when there is a dispute. Many town departments use these maps, as do the residents, real estate appraisers, and many others. We are asking for your support at town meeting.

1993 was also significant for the Town of Rowe, because Rowe Camp and Conference Center, which was taxed in 1992 for failure to file the Form 3ABC in a timely manner, ensuring their tax exempt status, filed a legal case with the Appellate Tax Board, asking them to rule against the Town of Rowe, for denying their abatement request on the property owned by them, which had previously been exempt from taxation.

A ruling from the Appellate Tax Board stated that they (ATB) had no jurisdiction to rule on the matter. The Town of Rowe filed a Motion to Dismiss, and the taxable status for 1993 remained, and Rowe Camp & Conference Center contributed approximately \$7,000 in taxes to the Town. The information that the ATB had no jurisdiction came from the Assessor's Clerk, Shawn Diemand, while she was attending an Assessor's Class at UMass/Amherst in August, 1993.

The Assessors' Board (3 members) and clerk have been operating in an office which is inadequate in space. A formal letter of request was sent to the Selectmen asking for more space. Since the Nurse's Office is vacant (and is next to ours), we would like to have an opening cut through the wall, and a door installed. This would give us a room in which to conduct tax business and review tax maps.

The Assessors' office is open to the public on Wednesday mornings from 9-12, in addition to the twice a month evening meetings, usually held on Monday or Tuesday at 7:00 p.m., and posted on the Town Hall Bulletin Board.

Respectfully submitted,
Georgia O'Brien, Chairman
Robert F. Kenney
David F. Scrivens

United Savings Bank for \$95,000.00 grant to Harold R. Fitzgerald of 41 Maple Street, Florence, MA, Old Cyrus Stage Road.

Edith M. Truesdell for consideration of \$175,000.00 grant to Wesley Gfroerer of 32 Old Farm Road, Charlottesville, Virginia, Tunnel Road.

Stuart Grodd and Velma Grodd in consideration of \$1,500.00 grant to James W. and Susan B. Taylor off Pond Road.

Beautification Committee

During 1993 maintenance of plantings and flower beds took place at the Town Hall, fire station, gazebo and the triangles at Potter, Brittingham Hill and Monroe Hill Roads. This included fertilization, trimming, weeding, mulching, pruning and planting. A major portion of the work was contracted out to Shelburne Garden Center. A portion of the weeding was done by volunteers due to budget cuts last year. Thanks go to those volunteers.

We do ask that you refrain from feeding the geese on the Village Green due to health hazards for children wishing to play there and for people who wish to have wedding and other photographs taken there. Thank you.

We thank Dick Tower for his thought of the split rail fence by the Refuse Garden, and we thank the Highway Department for erecting the fence. Thanks also go to the Town Crew for pruning the arborvitae at the Refuse Garden.

More lights were purchased for the Christmas tree on the Village Green. We thank the Highway Department again for putting the lights on the tree and keeping them in working order.

It has been nice to hear such wonderful compliments from out-of-towners on how nice our town looks.

Respectfully submitted,
Cynthia Laffond, Chairman
Thomas Danek
Ellen Foberg
Barbara Grogan
Richard Tower, Sr.

Building Inspector

During the year 1993 to 1994, 54 building permits were issued:

New buildings or additions	12
Remodeling	24
Demolitions	1
Signs	1
Wood stoves	5
Replacement windows	4
Re-roofing	7
	<hr/>
	54

In addition 79 Certificates of Inspection were issued. These represent the semi-annual inspection of public buildings as mandated by State and local towns.

Respectfully submitted,
William Foster
Inspector of Buildings

Cemetery Commission

The Cemetery Commission would like to thank Al Morse and Terry Veber for doing a great job maintaining the grounds. General repair work on damaged Head Stones, fences and walls were continued. It was brought to the attention of the Commission that the vault in Greenfield is no longer available for casket storage. This could become a problem for us during the winter months. We are looking into other possibilities.

Anyone with questions or comments, please contact any commissioner.

Respectfully submitted,
James Taylor
Richard Tower
James Williams

Civil Defense

The Civil Defense of Rowe is really performed by the Fire, Police and Highway Departments, and by friends and neighbors.

As always, we should all be prepared for the severe effects of nature: wind, water and fire. Knowledge of First Aid and C.P.R. can save lives until advanced medical care arrives.

The formation of Local Emergency Planning Committees (LEPC) is being directed by the Massachusetts Emergency Management Agency. Rowe may be joining this district, which may include the towns of Hawley, Heath and Charlemont. This compact is basically concerned about hazardous materials being transported through our respective towns.

James E. O'Brien
Civil Defense Director

Conservation Commission

The Conservation Commission periodically held meetings throughout the year to attend to all business brought before us. This included two requests for "Determination of Applicability to the Massachusetts Wetland Protection Act". The first was in regards to the installation of a tight tank for a septic system. The second was in conjunction with the Permitting of the Town Transfer Station. It was determined that both projects were within a "Buffer Zone" as described in the ACT but would not impact the wet lands. Our determinations have been reported as required, to the Department of Environmental Protection.

The commission also reviewed all Cuttings Permits issued by the Massachusetts Department of Forestry for the harvesting of timber within the Town of Rowe.

Respectfully submitted,
Leonard Laffond, Chairman
Henry G. Dandeneau
Dennis F. May
Robert R. Rice
David F. Scrivens

Dog Officer

Number of stray dogs found in Rowe and returned to owners - 17

Number of phone calls on lost dogs - 10

Number of phone calls received on harassing dogs - 6

One dog reported chasing deer

One dog bite reported

Again townspeople are reminded to purchase their 1994 dog license from the Town Clerk. The 1993 licenses expire on March 31, 1994. License fees are as follows:

Male Dog	\$ 3.00
Female Dog	6.00
Spayed Female	3.00

Many thanks to the townspeople for their cooperation and help throughout the year.

Respectfully submitted,
Leonard J. Brown, Jr., Dog Officer

Emergency Medical Department

There were two EMT's serving the town of Rowe in 1993: Gail May and Jean-Paul Migeon. With the help of the First Responders through the Rowe Fire Department, we were able to handle the medical emergencies that challenged us this year. In the coming year I will be actively trying to recruit another member to Rowe's medical team. Any Rowe resident who may be interested can contact me, J.P. Migeon, in the evenings at 339-6612.

Rowe EMT's and First Responders responded to: 11 Medical emergencies; 3 Vehicle accidents; 1 Drill this year.

I would like to take this opportunity to thank the Rowe Fire Department for all their support, the Charlemont Ambulance Service for their prompt and professional response and a special thanks to the Colrain and Shelburne Ambulance Service for their Mutual Aid to our town. I would also like to thank the County Dispatch, Mercy Ambulance and Franklin Medical Care Emergency Room Staff who have all played an important role in the emergency medical system.

Please remember that the number for all emergencies in the town of Rowe is still 339-4961 until further notice. If you have an emergency and need to call for help, the dispatcher who will answer the phone may ask you a series of questions that may not seem relevant to the problem at hand. Please realize that these questions are being asked to assist the police, fire and rescue member who will be responding to help you. Stay calm and answer the questions to the best of your ability.

Thank you for your help and support.

Respectfully submitted,
Jean-Paul Migeon, EMT Coordinator

Gail May

J.P. Migeon

Finance Committee

The Finance Committee began the fiscal year with a meeting on July 15, 1993. Our objective was to establish goals for the coming year and to identify the known challenges. We agreed on four areas that became our committed goals.

1. We each wanted to become active as members.
2. We vowed to review Warrants and Approval Reports at each regular monthly meeting.
3. We strived to become informed in two areas:
 - To know the responsibilities of a well run Finance Committee.
 - To learn the impact of the Education Reform Act on municipal required budgeting for Education.
4. We wanted to clarify our direction and responsibilities as a committee with respect to events and deadlines that occur within any given year. To accomplish these goals members accepted assignments to clean files, get Handbooks, to develop an understanding of spending trends and to get a schedule of deadlines.

By December we were well underway toward meeting the goals needed to give ourselves new direction. There were two major events declaring their need for attention.

1. The tax rate needed to be set. Standing in the way was the agreement of the Department of Revenue that the Education Reform Act figures agreed with the figures that the State office expected to see. Until that issue was clarified the tax rate could not be certified by the DOR.
2. Budget hearings for Fiscal Year '95 had to begin. After establishing priorities with Selectmen it was agreed that we would all ask for level funding in expenses and 4% increase in wages.

During hearings it became clear that while most departments could cooperate on level funding, that issues of compensation for labor was a varied as the positions being held. Some felt that they had been generous by not asking for raises for past years and wanted more than the 4% for that reason. While the committee was in sympathy with that view, we could only thank them, this year, for their forbearance.

When we looked at the forecasting formula that was developed it was clear that even with level funding, the loss of tax base and the need to increase salaries would create the need for taxes to increase.

The outcomes of this year has pointed the way to the need for future goals.

1. To study the impact of "Growth" (negative and positive) on the Minimum Level of Contribution required by the Education Reform Act. Aspects of this may take legislative action.
2. To monitor the tax rate with regard to the forecasting formula involving the use of stabilization funds as opposed to taxation.
3. To remain vigilant regarding the movement of student population at the school and addressing tuition development.
4. To increase the need to develop a healthy tax base resource for the future. This may involve defining ourselves as a town worthy of investment for residential and commercial purposes.

We currently have an enthusiastic, committed, intelligent group of people on the Finance Committee but we need all the help that we can get to meet these ambitious goals over the coming years. As Chairman, I wish to thank the Committee for their undying dedication and support to the Town of Rowe.

Respectfully submitted,
Donald Cloutier, Chairman
Dorothy F. Page
William Loomis
William Baker
Frederick Williams

Fire Department

During the last report period the Fire Department responded to twenty-nine calls:

- 1 Chimney Fire
- 3 Structure Fires
- 3 Brush Fires
- 3 Automobile Accidents
- 5 Fire Alarms
- 1 Electric Wire Down
- 13 Medical Emergencies

As a result of the Department's chimney cleaning program, fifteen homes' chimneys were inspected and/or cleaned this year. In the coming year, as in the past, we will clean the chimneys of the elderly and assist able-bodied residents. We will attempt to conduct the cleaning in August and September, before the heating season, so names should be submitted early.

The new attack apparatus was delivered by Conway Associates Inc. of Groveland, MA, in late June. The chassis was built by Mack Truck. The aluminum body was built by 3D Manufacturing, Inc., of Shawano, Wisconsin. Following testing of the truck's hose and installation of its equipment, the apparatus was placed in service in September.

New Fire Truck

The Franklin County Emergency Dispatch Center, which we entered six years ago, has provided reliable, effective service throughout the year. The dispatch service is housed in the Franklin Medical Center in Greenfield. The dispatch center answers our emergency phone and activates the pagers and plectrons of the town's firemen, policemen and/or EMTs, as necessary. In the event of any emergency, dial **339-4961**. During 1994 the town's emergency phone answering and dispatching will be changed to the Massachusetts State Police. The exact date of the transition has not been determined. When it occurs there will be no change for the town residents; the emergency phone number will be the same.

Work is continuing on the statewide Enhanced Emergency 911 system. All plans and required numbering of the houses in town were submitted to the 911 board and telephone company before the deadline of July 3, 1993. When the plan is completely implemented, dialing 911 will get emergency service response. The individual answering the 911 call will have the phone number and street listing of the location of the originating call indicated on a computer screen. It is not expected to be implemented in this area of Massachusetts until early 1996.

The Fire Department is made up completely of volunteers from town. The effectiveness of this organization is determined by the number of individuals it can train and maintain in a state of readiness, and by the condition of its equipment. We welcome anyone who is interested in protecting his/her own and his neighbors' lives and property from the potentially devastating effects of fire. Not all of the activities required to prepare for and combat a fire involve hands-on fire fighting. There is plenty of other work with which we could use help. Our program of regular monthly training/meetings is announced in the **Goal Post** for each upcoming month. These sessions are approximately one hour in length. This is a small investment of your time when you weigh it against the potential benefit that may be derived from your membership. The officers of the department would like to take this time to thank all members who participate in fire department activities regularly, and ask other members of the town to become involved.

I would like to thank Richard Howe for the many years of faithful service to the department. Dick serviced as a fire fighter and then as an officer since shortly after moving to Rowe in 1985. Dick resigned effective July 1, 1993, at which time he moved to Shelburne Falls. He was responsible for maintaining 30-M-2, the 1962 International Fire Truck, as well as his other officer responsibilities. During this period 30-M-2 was always available for service because of his hard work and conscientiousness. William Reardon was appointed to position of Lieutenant.

Respectfully submitted,
Edwin L. May, Fire Chief

The Rowe Goal Post

In its thirteenth year of regular monthly publication the *Goal Post* continues to strive to meet its goal of, "information exchange between all town departments and all Rowe Citizens". This has become increasingly difficult due to the apathy of many town departments and committees. I would again ask all town officers and committees to be aware of the value of the *Goal Post* as a means of keeping our citizens informed and involved in the business and activities of the community. The more information that comes directly from the boards and committees the more intelligent will be the decisions you ask the townspeople to make at town meetings. Citizens will be voting on the facts that they have duly considered and not on rumor and hearsay which becomes so prevalent when people are uninformed. Please strive to make use of the *Goal Post* for its original purpose.

My thanks to all who have helped this year and to those faithful who have submitted their monthly reports and on time. Special recognition to Pearl Jurentkuff who has "retired" as assistant editor but keeps involved with the mailing process. Her wisdom and advice and moral support as assistant editor will be greatly missed. To Deb Alix my thanks and gratitude for taking over as editor in my absence. Cheers for Jane Gracy for keeping our weather record, to Dave Scrivens for keeping our eyes on the sky and to Dick Tower for photographically recording life in a small town. To Chris Tower and all those who have helped with the collating, you are much appreciated.

I have asked for a budget increase of \$100 to cover increased printing costs and a figure of \$600 to establish a fund to pay an assistant editor as may be required in my occasional absence. Any payment would be based on an hourly rate for work involved. This brings our requested budget to \$9500. I will be glad to continue as a volunteer editor and the use of my computer, laser printer and copier are donated.

As always, suggestions, news, original stories and poems, pictures and family news items are always welcome. If you keep me informed, together we can make the *Goal Post* a real community project.

Respectfully submitted,
Nancy N. Williams, Editor

Health Agent/Sanitarian

During the year 1993, I observed with members of the Board of Health the performance of three Percolation Tests for the installation or repair of sub-surface sewage disposal systems.

Permits to install were issued for all three systems.

Final inspections of the installed systems were made and certificates of compliance were issued.

Inspection was made of the Rowe Country Store with members of the Board of Health. A permit was issued.

Inspection was made of the Rowe Camp Conference Center kitchen. The kitchen was found satisfactory and a permit was issued.

Consultation with Rowe Camp personnel concerning the sewage disposal systems serving the recreation hall and kitchen took place late in the year. Recommendations were made to up-grade the system in the spring of 1994.

I wish to thank the Board of Health for the fine cooperation extended to me during the year.

Respectfully submitted,
John A. Brickett, R.S.
Heath Agent - Sanitarian

Board of Health

Solid waste removal costs have held steady since 1990 due mainly to the recycling efforts of Rowe citizens. Figures released by The Materials Recovery Facility (MRF) in Springfield show that Rowe has the highest percentage of recycling participation by its residents in the county. Thank you all for your conscientious recycling efforts. You are not only saving valuable landfill space, you are also significantly saving the town and yourselves money.

The town participated in the annual Hazardous Waste Collection Day in November 1992. Our allotted slots (6) were filled, with an average cost per participating household of \$75.00.

Rowe made the "Approved Municipal Recycling Program" charter list to be distributed to solid waste disposal facility operators. Being on this list means that private and public regional solid waste disposal facility operators are not required by DEP to inspect our refuse for glass and metal containers.

The following percolations tests were performed in May 1993:

Map 2, Lot 12	(M. Bradley)	Passed (replacement)
Map 11, Lot 36	(P. Dunnell)	Passed (replacement)
Map 1, Lot 10	(R. Howe)	Passed (replacement)
Map 2, Lot 19	(Genesi)	Passed

The following Disposal Works Construction permits were approved:

Map 1, Lot 10	(R. Howe)	Repair
Map 2, Lot 12	(M. Bradley)	Repair (upgrade)
Map 11, Lot 78	(J. Daneker)	Tight Tank (seasonal)
Map 1, Lot 29	(K. Jurentkuff)	Repair (upgrade)
Map 11, Lot 122	(W. Boyd)	New Construction

Final inspections of the above systems were completed by Health Agent John Brickett and/or Board of Health members.

The following sewage disposal system installer's permits were issued for 1993:

James Williams Middletown Hill Rowe MA 01367	Thomas P. Danek, Jr. d/b/a Danek Logging Cross Road Rowe MA 01367	Barkus Excavating RFD #1, Box 19 Readsboro VT 05350
----------------------------------------------------	----------------------------------------------------------------------------	-----------------------------------------------------------

The following septage pumping/hauling permits were issued for 1993:

Bostley Sanitary Service	Houghton Sanitary Service	A-1 Sanitary Service
Nelson Road	Guilford Center Road	Bernardston, MA
Colrain, MA	Guilford, VT	

Town-owned public water supplies (municipal center well, school well, and Avery fountain), and the pitcher pump and swimming area at Pelham Lake Park (in season) were tested as required by state regulations. All results were within allowable limits.

At the request of the Park Commissioners, samples of lake water were taken from in front of each of the 12 cottages at Pelham Lake and were tested for total & fecal coliform bacteria during late July. All tests were within allowable parameters for swimming. Water in the "causeway" pond was also tested for these two items and found not to be suitable for swimming, but within safe parameters for pond water.

The board is in the process of preparing an application for an "Existing Facilities Transfer Station Permit" from the Mass. Dept. of Environmental Protection (DEP). The transfer station has been in existence for 17+ years; however, this is a new requirement per state regulations. At this point we are not anticipating any problems in obtaining this permit. Dufresne-Henry, professional engineers, along with Bill Allen, county engineer, have been working on the permitting process with us.

In May 1993 our town nurse resigned. In discussion with town counsel when reviewing the position and duties involved, we were strongly advised not to fill the position due to significant liability issues for the town. The board did want to continue the blood pressure clinics and annual influenza vaccinations. The school committee and school principal were happy to consent to having the school nurse provide these services to townspeople. We appreciate their willingness to accommodate our residents, and especially thank Ellie Silva, R. N. (school nurse) for the conscientious, professional service she is providing. We also thank Rowe EMT's J. P. Migeon and Gail May for volunteering to hold blood pressure clinics during the summer months before school was in session in September.

B. J. Roche and Daniel Wessman were reappointed Recycling Coordinators for the town. We thank them for their efforts and services to the town.

Carol (Besgen) Lively was appointed Animal Inspector, replacing Deborah Lively who did not seek reappointment. We thank Deb for her conscientious service to the town for many years.

Respectfully submitted,
Ellen L. Foberg, Chairman
Leonard J. Laffond
James E. O'Brien

Library Trustees

In 1993 the Rowe Town Library continued to offer a varied selection of books, periodicals, and videos for checkout by library card holders. The Library has been utilizing the Trust Funds in order to get more mileage from our budget dollars, and still provide the town with the library services that we feel the Town of Rowe deserves. The Library staff continues to do a fine job of providing these services.

In the early fall the Library roof leaked water into a portion of our fire detection system. The roof was patched and the system was repaired. However, the Trustees felt that the roof needed more attention and it was decided to ask the Selectmen to handle the contracting out of this job. The Trustees felt that the Selectmen have more experience in this area, as well as a more complete picture of the coming year's expected expenditures. As of this report, quotes are being obtained by the Selectmen, and the work will be accomplished in 1994 (weather permitting).

Bill Foster, building inspector, continues to keep an eye on the carrying beams in the cellar. The beams are wood and starting to show some signs of deterioration. As of now there is no cause for concern.

Finally, we hope the townspeople will continue to visit and enjoy their library in good health in 1994.

Respectfully submitted,
James Lively, Chairman

Park Commission

We will begin by thanking Jen Rice, our supervisor, for the wonderful job she did maintaining our park during the summer of '93. A special thank you to Claudine Rice for her expertise in lifeguarding and keeping the beach area safe. We would like to thank Heath for funding an extra swim instructor for the fifty participants that we had. As always, a special thank you to the highway department for their help throughout the year.

This year was a year of general maintenance and small projects as we had reduced our budget significantly. We did begin work on a permanent volleyball area which will evolve over the next several years. We also had the tennis courts sealed and relined through a special appropriation. The White Tail Trail off the top of Adams Mountain was finished and we invite you to explore it this summer. We did have some trouble with vandalism this past year.

Swimming lessons for 1994 will take place the first two weeks of August with sign-up on the Saturday before, July 30. More details will be available in the June Goal Post. There will be new resident stickers and guest passes this summer which we will begin distributing at the end of May. We look forward to a safe and productive summer in 1994. Be sure to come down and enjoy the many beautiful hiking trails this spring !

Planning Board

The regularly scheduled meetings for the Planning Board were moved from the first Monday of the month to the first Thursday of the month. Upon request from the Finance Committee, the Planning Board agreed to a 20% cut in budget for FY '94. Margalee Riggan was reelected to the Planning Board for another 5 year term this year, and Deanna Corarito was elected for a term of 4 years. Everyone on the board retained their previous positions on the board which are: Prudence Berry, chairman; James Taylor, vice chairman; Margalee Riggan, clerk; Robert Rice, representative to the Conservation Commission; and Deanna Corarito, secretary.

The business of the board this year included granting of a Special Permit to Rebecca Bradley to operate a Bed and Breakfast on Middletown Hill Road, and the signing of plans of James and Susan Taylor to purchase 2/5 acre from Stuart Grodd as ANR (approval not required). An issue surfaced on a previous ANR signed in December of 1992 on a plot of land sold by Molly Scott at that time. The boundaries of that land have been challenged, so that parcel may come before the Board a second time in the future.

The board renewed its membership with the Massachusetts Federation of Planning and Appeals Board.

Respectfully submitted,
Prudence Berry,
Chairman

Plumbing Inspector

Henry J. Dandeneau
Chief of Police

Summer Youth Employment

Each summer a crew of teenagers and supervisors is hired to clean up along roadsides in town (mowing, trimming, etc.). This year's grasshopper crew was made up of the following:

Supervisors:	Mary Jo Phelps (Chief Supervisor)	
	Lance Larned	
	Sean Loomis	
Grasshoppers:	Kenny Cloutier	Paul May
	Ellen Dandeneau	Nick Soviecke
	Crystal Hardison	Brandon Sprague
	Fawn Hardison	Jonathan Tower
	Jamie Jette	

As in previous years, the first day of work started off with a safety presentation by the State Department of Labor & Industries. It is imperative that the workers understand the importance of safety when operating motorized equipment and working along roadsides. These presentations also keep the supervisors, highway crew and selectmen up-to-date on Child Labor Laws (for workers ages 14-17) which are much more stringent than labor laws for persons 18 years of age and older.

We were very fortunate to have Mary Jo Phelps head up the "grasshopper" crew this year. She's very energetic and enthusiastic, and the crew enjoyed working under her. Everyone did a great job. We really appreciate the hard work done by these kids.

Respectfully submitted,
Ellen L. Foberg, Administrator

Summer Youth Employment Crew

Veterans' Agent

I've been assured by Prestige Stone Company of Wilmington, Vt. that the Desert Storm plaque will be ready for installation on the War Memorial as soon as weather permits. As soon as the plaque is installed we will be planning a dedication ceremony for this plaque along with the Korean and Vietnam plaque that was added some years ago.

All veterans' graves were decorated with new flags just before Memorial Day. My thanks to Don Lindabury who volunteered his time to help decorate the graves this year. If there is another veteran in town who would like to take part in this years' decoration of veterans graves, please contact me as soon as possible.

Respectfully submitted,
David F. Scrivens

Wiring Inspector

To the Town of Rowe:

There were sixteen (16) wiring permits issued for the year 1993. I would like to remind everyone that a wiring permit is required in the Commonwealth of Massachusetts for the installation of wiring and electrical apparatus.

Respectfully submitted,
John F. Rossi
Inspector of Wires

Franklin County Commissioners

For yet another year the legislature's efforts to bring closure to its ongoing struggle with County Government were characterized by promise and turmoil. Between January 93 and 94 we have seen the reinstatement of a local property tax to finance County Jails, a continued inability to come to terms with the operating costs of an overburdened judicial system, and a reluctance to lead, follow or get out of the way of the few counties which have been reinventing government long before it was fashionable or unavoidable. Yet, even as several bills called for eliminating or dismantling counties, there was published a report on the future of regionalism and counties' role as the traditional mid-level of government.

Much recognition was given Franklin County not only in the report on the future, but in the report which called for abolishing counties. Both documents cite Franklin County as the model for how county government should work. The abolition bill actually exempts Franklin County from many of its provisions. Yet our charter legislation has not been authorized by the legislature to come back to the County's citizens for a vote. Why? Our charter requires that municipal funding for the county be used solely for providing municipal services, not for financing the Jail, Courthouse and Registry. With the effort of our Sheriff, we are getting closer to achieving full state funding of our Jail, but until the state fully finances its obligations, the squeeze remains on our local services.

Our reputation in Boston has been built on how much we accomplish with limited resources. The Planning department reached a number of milestones in transportation planning including the completion of the Long Range Regional Transportation Plan and the creation of the Transportation Subcommittee. In addition, the Bikeway Plan is now in line for federal funding. With the assistance of our Natural Resource Planner contingency plans were developed for several communities to provide sources of water supply in the event of contamination or drought. Much work was dedicated to helping small water suppliers in Franklin County comply with the testing provisions of the Safe Drinking Water Act and plans are underway to apply for grant funding in 1994 to form the first water testing collaborative for small suppliers.

Geographic Information Systems (GIS) technology arrived in the Planning Department at the end of 1993 and work is underway to begin using the system for transportation modelling. Looking ahead, the Planning Department will be developing a modelling process using GIS technology which will identify potential growth centers, future transportation infrastructure requirements, opportunities for public transit and linkages between rail, roads, air and bikeways.

The municipal and planning staff continue to field many requests for technical assistance on a wide variety of issues including zoning and planning, purchasing, health insurance, ADA compliance, and grant writing for special projects. The Community Services Department continues to look at the growing needs of Franklin County residents. As a result, the Commission supported the creation of a Franklin County Child Abuse Prevention Task Force and is working on efforts to create a Community Response Team. The Community Coalition for Teen (CCT) received a 5 year grant to continue its work to prevent teen pregnancies in Franklin County. Community Services also received a Tobacco Control Coalition grant which, in collaboration with the municipalities' local Boards of Health will work to prevent tobacco use in the County. Violence prevention and substance abuse prevention continue to be dominant efforts, as well as ongoing efforts to upgrade the emergency medical services training and communication program.

Respectfully submitted,
Mary Forbes, Chairman
Margaret Striebel
John Stobierski

Franklin County Solid Waste Management District

Your Solid waste Management District continues to make major strides toward our overall goals of waste reduction, recycling, education, and long-term waste disposal.

Our plastics recycling program expanded the range of eligible plastics to include all plastic containers with a recycling number on the bottom. We now keep more than 7 tons every month -- 400 cubic yards -- of plastic out of our landfills! Contamination caused by unrinsed containers has been the major problem with the program.

The District's second annual collection of Household Hazardous wastes (HHW) last November served just under 400 households in fourteen towns. This year, for the first time, all forms of paint were accepted to be recycled -- even the paint cans were recycled!

Our new Education Coordinator, Lynn Rose, moved into high gear on a number of fronts, including home composting education, school recycling programs, business recycling, institutional food waste composting, and data collection. As part of a federal grant, municipal solid waste management guides were distributed to all member towns. We sponsored a series of workshops for area businesses, promoting recycling and waste reduction at the business level. In addition, recycling markets directories are now available to local businesses. We received several educational grants, and have applied for more for next year.

The District took an active role in encouraging the development of a privately-funded solid waste and sludge composting facility in Northfield. The proposed facility received the go-ahead from MEPA in mid-winter. If all goes smoothly, the facility could be operational by the fall of 1995. We are negotiating a contract to enable our towns to use the facility at a reduced tip fee.

The District Administrator worked with other western Mass. officials on drafting a new, five-year agreement for the MRF in Springfield. Details are still being negotiated, but it appears that free tipping at the MRF will continue for the next five years -- although several performance standards will be required. A recycling education fund will be created using both local and state money.

The Town of Conway voted to join the District, bringing our number of member towns to 21. Our volunteer representatives from all the towns continue to wrestle with the complex questions of solid waste management. We appreciate your continuing interest and support.

Charles Sylvester, Chairman
Robert Rottenberg, Administrator

School Reports - 1993

Custodian Bob Rice and our school's new sign.

Report of the Superintendent of Schools

It is with pleasure and great expectations that I submit my first report as Superintendent of Schools. I began work here on December 1, 1993, replacing Dr. Bruce Willard who served as Superintendent of Schools for 14 years. Dr. Gordon Parker, a psychologist at Mohawk Trail Regional High School, served as Interim Superintendent of Schools from September until shortly after I was hired.

During the past year many changes have occurred at the state and local levels which affect our schools. In June, Massachusetts passed the Education Reform Law which has many positive and forward looking components. Unfortunately, this law originally failed to recognize that our regional schools, as well as many other regional schools in the state, have for years based their assessments to towns on five year enrollment averages, rather than actual current enrollments. Because of this, we were unable to finalize two of our budgets for the 93 - 94 school year until mid-December. The State Department of Education briefly assumed control of the Buckland-Colrain-Shelburne and Mohawk Trail Regional School Districts, which was required by law since we did not have budgets for those school districts by December 1. This did not seriously impact the education of our students because the state appointed Dr. Parker as its on-site agent. Largely because we made the case for five years averaging loudly and clearly, the State eventually gave us permission to use any assessment process for this year that would bring two thirds of the towns of the Buckland-Colrain-Shelburne and Mohawk Trail Regional School Districts to agreement. Once the state gave us that option, we were able to work out a local solution to our budget problems. I was very impressed by the cooperation and the generosity that I saw exhibited at the joint meeting of the Mohawk Municipal Advisory Committee, Buckland-Colrain-Shelburne and Mohawk Trail Regional School District Committee. Because of our tenacity, we learned recently that the State Department of Education will allow districts to continue to use five year averaging in assessing towns their share of the budget.

Considerable time and effort by school committee members and others were put into studying the possibility of forming a kindergarten through grade 12 regional school district for the eight towns that belonged to the 7-12 Mohawk Trail Regional School District. We were not able to get all of our towns to agree to form a K-12 system. Because of this we stood to lose significant amounts of regional incentive aid, which would have no longer been available after December 31, 1993. Due to extraordinary efforts on the part of Senator Stan Rosenberg, Senator Jane Swift, Representative Steve Kulik and their able staff, special legislation was passed on our behalf. The Buckland-Colrain-Shelburne Regional School District, the Ashfield-Plainfield

Regional School District and Union 65 were dissolved. The Towns of Ashfield, Buckland, Colrain, Heath, Shelburne and Plainfield became members of a newly expanded Mohawk Trail Regional School District serving students K-12. The Towns of Charlemont and Hawley will be members of this new Mohawk School District, but only for grades 7 to 12. The Hawlemont Regional School District will continue to exist and to serve Charlemont and Hawley students for grades K-6. The Town of Rowe, which withdrew from the Mohawk Trail Regional School District several years ago to help the other towns receive more state aid, will continue to have the right to send their students to Mohawk Trail High School as per the agreement made at the time Rowe withdrew from the Mohawk District.

At this time I would like to thank the Town of Rowe for the generous extra contribution that they have made to Mohawk during the past several years. They partially fund one guidance counselor. They run a late bus for their students and also provide some transportation free of charge to students from Charlemont, Hawley, and Heath.

In addition to myself, four new administrators have joined our school system during the past year. Donald Potter was hired as the principal at Buckland-Shelburne Regional School. Jeff Taylor was hired as the principal at Rowe Elementary School. Jackie Daley was hired to fill a one year leave position at Colrain Central School, filling in for Peter Dolan who took a leave of absence. William Hickey was hired as the Administrator of Special Education.

We are faced with serious building problems. Most of our schools are over-crowded and in need of repair. We have several active building committees studying these problems. These issues will have the full attention of myself and my staff.

During my brief time on the job I have seen several positive things going on in our schools. I believe that we have many dedicated and talented teachers and staff members, many wonderful young people and considerable support from parents and citizens. I look forward to the challenges and rewards of leading this school system.

Respectfully submitted,
Albert J. Cormier,
Superintendent

Rowe School Committee

The Rowe School Committee; as advocates for quality education for all our children and overseers of the school finances, have worked very hard over the last year to balance the two.

There have been ongoing meetings continually discussing the K-12 regionalization issue along with the future path of the Rowe Elementary School.

With the closing of the Yankee Atomic Plant, the overcrowding at the elementary school, and the Town of Rowe not being invited to join the region, the School Committee has had several vital issues to discuss and take action on.

The Rowe Elementary School enrollment was set to not exceed 90 students. This was done with the intent that students presently enrolled will have the opportunity to graduate from Rowe Elementary.

Progressive reduction in enrollment did occur starting July 1, 1993 limiting kindergarten to 12 students and each ensuing year, to result in an out come of 90 students by year seven.

The capping of the Rowe School at 90 not only solves the overcrowding problem but also eliminates the need for immediate, costly renovations to the interior of the school or additions to the building.

The committee also spent a considerable amount of time trying to get answers from State Representatives about the new proposed Education Reform Bill and School Choice Law.

We had begun at the beginning of the fiscal year to review and revise all job descriptions and continue to work on this project.

Throughout the year a sub-committee continued to negotiate a contract with the teachers of the elementary school.

The committee accepted with deep regret the resignation of Carolyn Chilson, our full time School Nurse. Lynn had dedicated hours of time to the school community and is missed by all. We wish her the best of luck in her retirement.

The committee again had the sad job of accepting the resignation of Bruce Willard, Superintendent of Schools. Bruce had worked with us for many years and it is with real regret to have him leave.

The Rowe School Committee continues to work diligently to provide quality education for the children in a positive learning atmosphere.

We, as a committee, encourage townspeople to attend our meetings regularly and want to thank you all for your support over the last year.

Respectfully submitted,
Maggie Rice, Chairperson

Rowe School Graduates

Rowe School Principal

My first months as principal at Rowe Elementary School have been very rewarding. But this, my first report to you, puts me in the odd position of describing a year during which I was hardly here. If I may, then, I would like to use this annual report to sum up my impressions of the school, and to indicate some likely directions for change as we begin thinking about the 1994-95 school year.

Upon my arrival last September, I found the staff hard at work finishing the five year interim report for our accreditation through the New England Association of Schools and Colleges (NEASC). This process, to which former principal Phil O'Reilly and the teachers had devoted many hours, required the school to respond to a long series of comments, criticisms and program suggestions made by the NEASC accrediting panel, by showing how Rowe was actually bringing all aspects of the school up to our own standards, as articulated in the school's mission statement and educational goals. Among the alterations brought about by this accreditation process were revised curricula in math and language arts, and the student conflict mediation program.

This kind of thoughtful reflection upon programs and practice is one of the strengths of Rowe school's culture. Indeed, it has been the custom each year to choose one area of the curriculum for review and revision. This year, at the teachers' request and with my encouragement, we have chosen to focus not upon a single subject, but upon the question of assessment: How do we know how well individual students, the class, and each teacher are doing? How can our assessment of current performance help to improve future performance? How can we best communicate to the larger community the "state of the school"?

These are, by no coincidence, the kinds of questions being raised by the Commonwealth's Department of Education as a result of last summer's Education Reform Law, which requires, among other things, the creation of performance standards for evaluating students, teachers and schools. To that end, the law provides for the creation of "local education councils" at each school in the Commonwealth, to assist school staff in creating and performing program assessments.

Our own Rowe School Education Council was established in October with ten members: co-chair Ann Foshay, Karl Jurentkuff and Sue Taylor representing the Rowe community; Sharon Brower, Doug Wilkins and Terry Krumm elected by the parents; and Janice LaPointe, Johanna Weinstein and Gail May from the school staff, with myself as the other chairman. We have chosen to focus our initial efforts on the related issues of the school playground, after school recreation, and athletic opportunities for our children; and I believe solid programs will result from these efforts. But the Council's real job will be to help

Rowe's New Principal Jeff Taylor

the staff and the larger community get a better view of how well the school is performing, and how that performance can be continually improved.

Another of Rowe's strengths has been the rich program of performances and extracurricular activities. This past year has been no exception: students were still speaking of last spring's cultural study of Japan when I arrived in the fall, for example. These annual programs, which immerse the school and the community in another region of the world - its culture, crafts, cuisine and even language - help broaden our students' view of the world they inhabit. We have been visited this year by the University Dancers from UMass, with more cultural activities to come. In addition, the whole school enjoyed a hike to the high slopes of the Mohawk Trail state park on a lovely October day, and all but the kindergartners had the opportunity to learn to ski in January. The fifth grade once again started the school year off with a week-long visit to Cape Cod, a trip on which I accompanied them; and the sixth graders are diligently raising funds toward their annual trip to Washington, D.C. Our two oldest classes also collaborated last spring on a production of Gilbert & Sullivan's **Mikado**, ably directed by our own musical team of Fournier & Hines: that is, sixth grade class teacher Karen Fournier, and music teacher Ed Hines. This will be followed up later this year by **H.M.S. Pinafore**.

New mathematics texts, plus classroom sets of calculators for older students and hands-on materials for the primary grades supported our move this year

toward meeting the new standards in math instruction, where the emphasis is now on thinking skills, mental math, estimation, and such newer subjects as probability and constructive geometry. We sent almost every teacher to the Northeast Math Conference, held this year in "nearby" Springfield. Fifth grade teacher Leonard Schoenfeld has been our representative to Project PALMS, a statewide initiative to improve science teaching, while Johanna Weinstein, in fourth, has directed preparation for this year's cultural study of Mexico, set for April. Lorraine Cetto in grade three has put the school's new Macintosh cluster to work in math, reading, and strategic thinking, while Ed Hines is using computer-based scoring tools to teach composition and arrangement to some older students.

There are several new faces (in addition to my own) around the school yard this year. Our new nurse, Ellie Silva, has been a real addition to the staff, as well as a help to the community, providing flu shots and blood pressure monitoring through her weekly clinics. Kindergarten teacher Cathy Geyster, formerly at Sanderson Academy, brings us several years of experience working with the youngest students. And Anneke Wegscheider joined us mid-year to take up residence in the Resource Room. Anneke replaces veteran teacher Joanne Giguere, who accepted the principalship in Leyden last December. Classroom aide Pat Poisson also left us in December, as she prepared for a move to Cape Cod. Karen Fournier, who has been at Rowe for 25 years, announced plans recently to take early retirement after this year, and Lenny Schoenfeld will take a sabbatical next year to pursue his doctorate at the University of Massachusetts.

I am impressed with what I have found in my five months at Rowe: with the liveliness of the students, the dedication of the professional staff, the strong community support. There are, to be sure, some uncertainties to be faced in the years ahead as a result of the recent Mohawk regionalization, the prospect of a school in Heath, and the as yet undefined performance requirements of the Education Reform law. I am confident - as I hope you are - that the students, staff and community of Rowe School are fully capable of meeting the challenges ahead.

Jeff Taylor
Principal, Rowe School

Mohawk Trail Regional School Principal

It is my pleasure to present my report to the citizens of the Mohawk Trail Regional School District. This year marks a moment of change for the school as the district expands to include many of our elementary schools. Change is also in the air as the Educational Reform Act of 1993 begins to mark a new era of education improvements.

The Mohawk Trail Regional High School began the school year with the formation of a School Council which is composed of the principal, three teachers, four elected parent members, three community representatives and two elected students. This new body is charged with developing a school improvement plan, reviewing budget proposals, and insuring educational quality for all students. The committee meets twice a month and it has been reviewing expectations of students and requirements for graduation. The council is also examining school structures.

The Mohawk Parent Teacher Organization, which meets on the second Monday of the month, continues to grow in size. The group focuses on enabling a good flow of communication between the staff and the parents. Many parents' suggestions are considered and adopted. The school is also very grateful to the Mohawk Athletic Association, a group of parents actively involved in supporting athletics, for raising tens of thousands of dollars to support sports programs. The Mohawk Music Association has done likewise in the support of the music program.

The school continues to develop new and enriching academic programs. Plans are now complete for the addition of Advanced Placement Biology in the fall of 1994. Work is underway to develop and expand programs in computer technology. The commitment of our citizens has enabled us to continue to do our best for the young people of our towns.

This fall, the middle school musical "ANNIE" was a resounding success; preparations are underway for the production of "GUYS AND DOLLS" for the spring. Athletic teams continue to lead the area in their successes. Several programs are building, many others are flourishing. Several teams have been participating in regional tournaments. About 60% of Mohawk students participate in after school music and sports programs.

Peer education has expanded this year to include peer mediation, tutoring services, substance abuse education and outreach to the elementary schools. A

large group of students have formed a Diversity Awareness Coalition to enhance the message of inclusiveness.

The school continues to grow. Our present population of 750 will increase in the fall to exceed 800 creating another shortage of space. Planning is underway to provide modular rooms.

In closing, we once again thank the officials and the citizens of our nine towns for your unwavering support of the school and its mission.

Respectfully submitted,
Philip A. Dzialo,
Principal

1993 Graduate of the Mohawk Trail Regional High School Town of Rowe

HENRY R. DANDENEAU

Special Education Annual Report

As of December 1, 1993, there were 332 children receiving special education services throughout the nine towns of the Mohawk Trail Regional School District. This accounts for approximately 17% of the total student and pre-school population. The majority of special services are provided within the individual's school district whenever possible. When, as in some cases, it becomes more effective to provide out-of-district services, such services are sought.

Chapter 766 of the Acts of 1972 requires that services be provided to a "...school age child: any person of ages three through twenty-one up to his/her twenty-second birthday, who has not obtained a high school diploma or its equivalent and who because of temporary or permanent adjustment difficulties or attributes arising from a developmental delay or intellectual, sensory, neurological, emotional, communication, physical factors, specific learning or health impairment or combination thereof, they would be unable to progress effectively in a developmentally appropriate education program and would requires special education."

In order to meet the needs of our students, a wide variety of services are provided. A number of these services and their providers cover the entire nine town district, while others are found in individual districts.

System-wide services are provided and consist of occupational therapy, physical therapy, speech-language therapy and the services of an Early Childhood Coordinator. A great deal of the therapy provided is on a one-to-one or small group basis. The goals and objectives that the therapist and student work on are addressed in the child's Individualized Education Plan. These goals and objectives are periodically reviewed so the child's program will continuously provide for the best possible program.

The Early Childhood Coordinator is responsible for implementing federally mandated child search activities in the nine town area throughout the year. The Early Childhood Coordinator coordinates and/or participates in: a) special needs screening of preschoolers age 3 to 5 years; b) special needs screening of Kindergartners; and c) Team meeting of preschoolers and Kindergartners. The Early Childhood Coordinator acts as a liaison with outside agencies serving young children in and from our district. In addition the Early Childhood Coordinator also acts as a resource person to parents, teachers, and other school staff in regard to resources, programs and services for young special needs children.

There are two primary goals in our special education program, one is to "mainstream", that is, to integrate the children into the regular education programs as much as possible. And, two, we have also embarked on a program

of “*full-inclusion*”, where and whenever possible, which maintains the child in the classroom all-day, regardless of the disability.

There are ten special needs rooms throughout the nine town district. Most of the students serviced by these programs are seen for subjects areas such as language arts, math, study skills, etc., while also developing strategies and techniques which are aimed at helping children to both cope and/or remediate the effect of their disabilities on learning. The special education instructor often coordinates the child’s program with that of the regular education program. With the added assistance of the special education aides, the goals and objectives of each child’s Individualized Education Plan are implemented and regularly evaluated.

Each of the schools within our district receives services from a school psychologist. The school psychologist contributes a variety of services to our schools, chief among these services are their assessments of an individual’s ability and the counseling provided to individuals.

All of the support services provided within our nine town district depend upon the strong networking of talented individuals. Parents (through individual and Parent Advisory Council support), school personnel and outside support agencies, all assist in providing guidance in programs for children in both special and regular education programs. It is this coordinated effort that strengthens special education programs and enables us to meet the special needs of those we serve.

Respectfully submitted,
William Hickey
Director of Special Education

School Library/Media Report

This past year has been characterized by collection development, expansion of volunteer programs, and the introduction of new technology. Our six school library/media centers have all experienced a year of stability and growth. The staff have remained as follows:

Buckland-Shelburne Regional Elementary School	- Toni Wilcox
Colrain Central School	- Eugenia Lynch
Hawlemont Regional Elementary School	- Candy Cross
Rowe Elementary School	- Wanda Musacchio
Sanderson Academy	- Beverly Williams
Mohawk Trail Regional School	- Julie DuPree
	- Marjorie Porrovecchio
	- Pat Hinds
	- Susan Silvester

The school district library/media center have embarked on a three year plan to implement an on-line, computerized library catalog system. The annual Block Grant allocation of just over \$11,000 has enabled us to purchase basic computer equipment, a network system and retrospective catalog conversion services from the Winnebago software company. We have also submitted a \$5,000 Commonwealth Inservice Institute training and support grant.

Despite continuing budget challenges, the district circulation statistics have remained fairly constant as reflected in the following information:

K-12 District Circulation	
Print Material	35,489
Non-Print Material	5,440
Inter-Library Loan	186
Total District Circulation	41,115

Library personnel have been involved in the new K-12 Educational Technology Committee, meetings with local public librarians, inservice programs sponsored by the Western Massachusetts Regional Library System, Children's Literature Festival in August, technology workshops and several area conferences. We are especially grateful to the many people who contributed books, magazines, time, and expertise. It has been a productive and exciting year in the field of school information services.

Respectfully submitted,
Susan B. Silvester, Ed.D
Director of Instructional Media K-12

Franklin County Technical School District Superintendent - Director

I am pleased to submit the annual report of the administration of the Franklin County Technical School. As submitted in previous reports, I will briefly outline those significant events that have transpired during the past year.

Franklin County Technical School has experienced a change in administrative leadership with the retirement of David Filkins from the position of Superintendent-Director. The new administration will continue to rebuild F.C.T.S. in order that our staff, students, and community are able to meet the technological demands of the twenty-first century.

Regional schools have been given the trying and difficult task of implementing the new Educational Reform Bill. The law specifies that regional agreements shall be superseded by the financial requirements of the Educational Reform bill. This situation results in additional tension between the local towns and the regional school. Now, more than ever, we must work together to continue the excellent relationships that exist between F.C.T.S. and its member towns.

Franklin County Technical School continues to develop adult education programs that will benefit all Franklin County residents. The Adult Education Elder Workers program, located at F.C.T.S., is an excellent example of a successful program that can exist if we share our valuable resources.

The Student enrollment has increased by ten percent over the previous year. This trend will continue to do so as the population of high school age students increases and as we work with local high schools to eliminate the general tract of education.

The October 1, 1993 enrollment by District and Non-District towns are as follows:

Bernardston	17	Shelburne	7
Buckland	12	Sunderland	7
Colrain	14	Warwick	7
Conway	3	Wendell	5
Deerfield	17	Whately	3
Erving	15	Amherst	9
Gill	11	Ashfield	8
Greenfield	113	Charlemont	3
Heath	3	Hawley	3
Leyden	8	Leverett	3
Montague	80	Plainfield	1
New Salem	6	Rowe	3
Northfield	19	Orange	76

A very successful career fair was held in March at which area eighth grade students were given an opportunity to explore careers in the vocational/technical areas offered at F.C.T.S. In addition, a highly attended evening session was held for all the parents of the same eighth grade students and for other prospective students.

Articulation agreements continue to exist with Holyoke, Springfield, Technical, and Greenfield Community colleges which allow our students to receive college credit based on their competence in several technical programs.

Franklin County Technical School has entered its third year as a member of the Tech Prep West consortium with the same community colleges. This innovative program encourages our students to enroll in advance math, science, and communication courses at F.C.T.S. for which they receive college credit, automatic acceptance into the community college and an opportunity to transfer into an advance degree program at the University of Massachusetts.

As in the past a large number of community service projects were completed by our school production shops. The annual house building project (being built this year in South Deerfield) is our major project. However, a large number of District towns benefited from the skills of our student body. We have also been involved in a number of remodeling projects at county senior citizen centers and the construction of recycling sheds for several member towns.

The Tech School continues to receive a large and varied number of federal Grants allocated to curricular improvements. The School receives in excess of \$200,000 in direct grants to assist us in developing a large number of vocational

and special education programs. Furthermore, a number of our area business and industrial firms donated valuable materials, equipment and services to our school.

The Tech School was proud to offer diplomas and trade certificates to eighty-two seniors in the class of 1993. Our work experience and cooperative work programs continue to be an effective vehicle for job placement of Tech Students. As of September 1993 our Senior placement record was as follows:

Available for Placement	82
Entered College	15
Entered Military	6
Entered Work Force	49
Employed in Related Technical Training	38
Employed in Unrelated Technical Training	11
Job Placement (total)	60%

In conclusion, I would like to express my gratitude to the entire educational community at Franklin County Technical School for its dedication and hard work. Their support and understanding during difficult economic times have been appreciated.

Respectfully submitted,
Walter R. Welch
Superintendent-Director
