Board of Health
Meeting Minutes
May 4, 1993

Present: Ellen Foberg, Leonard Laffond, James O'Brien, Melissa Quinn

The meeting was called to order at 8:05 P.M. Meeting minutes from April 6, 7 and 20 were read and unanimously approved.

The Chairman reported that Joseph Vadeboncoeur requested a two year extension on his Disposal Works Construction Permit (Map 3, Lot 35) which is due to expire June 7, 1993. It was voted to grant him another two year extension with the provision that if 310 CMR Title 5 regulations change and current percolation test results no longer meet the criteria, the extension will become invalid.

A notice of a casualty loss to a building owned by Richard and Jean Harris (Potter Road) was received from LaMarche Associates of Palmer Ma.

It was the consensus to provide the town nurse with copies of the minutes of April 7 and 20 containing certain directives which either modify or are to be incorporated into her job description. Said job description is currently under review by the Chairman in consultation with Town Counsel. Chairman Foberg did receive a time sheet from the Town Nurse as well as a code key containing a four digit code and telephone numbers of patients. It was noted that the nurse had been asked to include patients names and addresses on the code key, but Chairman Foberg stated that she will accept the code key as presented in order to expedite resolution of the matter of the code key list.

Chairman Foberg reported that Paul Dunnell (Leshure Road) contacted her relative to the condition of a sewage disposal system on his property on Leshure Road. He stated that he has found a "rusty 500 gallon tank", and the Chairman advised him that he would absolutely be required to have a percolation test performed and install a new system. However, in light of the fact that the property in question is un-occupied, he was granted permission to continue with the renovation and alterations to the building with his pledge that he would proceed with the required percolation test and construction of a new sewage disposal system.

The meeting adjourned at 9:30 P.M.

Respectfully submitted,
Melissa S. Quinn, Administrative Assistant
