Board of Health
Meeting Minutes
July 13, 1993

Present: Ellen Foberg, Leonard Laffond, James O'Brien, Melissa Quinn

The meeting was called to order at 7:02 P.M.

Chairman Foberg reported that a successful percolation test (1" in 24 min.) was performed at the Genesi property on Pond Road on July 4, 1993 for repair of a system. (see file)

The Chairman also reported that EMT Coordinator J.P. Migeon has indicated that he and Gail May (EMT) are willing to conduct blood pressure screening at the Town Hall during the summer for two hours each week. It was voted unanimously to employ Mr. Migeon and Mrs. May for this purpose and offer a stipend of $25.00 for each session.

Correspondence was received from the Franklin County Solid Waste District Commission indicating that the town of Conway wants to join the District. Each member town must vote at a town meeting on the inclusion of a new member. This question will be placed in a special town meeting tickler file.

Terry Veber (Zoar Road) contacted the Chairman to inform her that his spring has ceased flowing. Frost Well Drillers is scheduled to drill a new well on the Veber property within the week.

The meeting recessed at 7:15 for a meeting of the Board of Selectmen and reconvened at 7:35.

Ruth Truesdell (Council on Aging) came in to present the Board a letter regarding Council's recommendations relative to the what they feel are the town nursing needs. (see attached) The Board will consider those recommendations as they endeavor to provide a reasonable measure of nursing care for town residents within permissible, legal limits designed to protect the town against undue liability.

The meeting adjourned at 7:50 P.M.

Respectfully submitted,
Melissa S. Quinn, Administrative Assistant
