Board of Health
Meeting Minutes
August 23, 1994

Present: Ellen Foberg, Leonard Laffond, James O'Brien, Melissa Quinn

The meeting was called to order at 8:50 P.M.

It was the consensus that a percolation test performed in 1988 on property owned by Robert George Waltermire (Map 6, Lot 39) is null and void. The test was requested by Molly Scott (an abutting property owner), without Mr. Waltermire's knowledge or consent, in the mistaken idea that it was on her land.

It was noted that the permit application for the Transfer Station was completed by Bill Allen, signed by Mr. Laffond and mailed to the Department of Environmental Protection during Chairman Foberg's vacation absence. Copies are on file.

Applications and engineers plans for the construction of two grease traps at the Rowe Camp and Conference Center have been received. They will be mailed to John Brickett for consideration.

A percolation test has been requested for a failed septic system at the Magnago property on Ford Hill Road. Scheduling will have to be postponed until Mr. Brickett returns from vacation.

Ms. Quinn was directed to send a letter to Robert Davidson relative to his request for a permit to sell raw milk from his farm in Rowe. (see attached)

A list of registered well drillers was received from DEP. A notice will be placed in the next *Goal Post* notifying residents that the list is available at the Town Hall.

A copy of the Commonwealth's Master Plan for Disposal of Solid Waste was received for file.

The meeting adjourned at 9:10 P.M.

Respectfully submitted,
Melissa S. Quinn, Administrative Assistant

Approved:

Ellen L. Foberg

Ellen L. Foberg, Chairman

Leonard J. Laffond
