Board of Health
Meeting Minutes
October 29, 1996

Present: Ellen Foberg, Leonard Laffond, Jeffrey Taskey, Melissa Quinn

The meeting was called to order at 8:43 PM. Also present was William Foster.

Bill asked about a building permit application from Dot Page for the Caldwell house (Map 2, Lot 16) on Pond Road. The permit was for repairs to the foundation, replacement windows, insulation, etc. (See attached.) He wanted to know if the work described required a Title V inspection. Chairman Foberg stated that no inspection was required in connection with the work described with the attached description, but any additional work would require an assessment by the Board of Health before a permit could be granted.

Chairman Foberg noted that in accordance with Title V, all percolation tests performed prior to January 1, 1996 are now considered null and void *unless* a septic system application (and accompanying engineer's plans) were filed with the Board of Health prior to that date.

A final inspection of the Alix/Rice septic system (Map 2, Lot 60) was performed on October 23, 1996 by Sanitarian John Brickett, Chairman Foberg and Board member Laffond. Everything was satisfactory and the installation was approved.

A well log was received for a well drilled on the Sandy Donovan property on Zoar Road (Map 8, Lot 21). The well was drilled to 275 feet deep and pumped 12 gallons per minute.

Information was received from file regarding lead paint inspection regulations. (See file.)

Other correspondence was read but required no action.

The meeting adjourned at 9:15 PM.

Respectfully submitted,
Melissa S. Quinn, Administrative Assistant

Approved:

Ellen L. Foberg, Chairman

Leonard J. Laffond

Jeffrey A. Taskey
