Board of Health
Meeting Minutes
October 14, 1997

Present: Ellen Foberg, Leonard Laffond, Melissa Quinn

The meeting was called to order at 7:35 PM.

It was noted that a letter was received from Tom Leue (Homestead, Inc.) relative to the Franceschetti septic system. (See attached.) Chairman Foberg and Mr. Laffond inspected the tank on October 9 and found that the tank was still leaking and the water level was down to the seam. The Chairman talked to Bob Shukis (Massamont Realty) and informed him that the tank must be replaced and located no less than 50 feet from the well, or put new tank in present location and drill a new well a minimum of 50 feet from the tank. The Board noted that they are less than happy with Mr. Leue's performance. He submitted an inspection report prior to inspecting the pumped tank (at which time the leak was discovered). He failed to schedule the inspection with the Board in advance, and did not intend to pump the tank at all until urged to do so by the Board.

The Chairman reported that she had been contacted by Jim Williams relative to the Carlow septic system. He asked if the installation of a curtain drain would alter the design of the system. Ellen advised him to discuss it with the engineer, but informed him that unless they can document otherwise. the system must be constructed as proposed in the approved plan.

The meeting adjourned at 8:08 PM.

Respectfully submitted,
Melissa S. Quinn, Administrative Assistant

Approved:

Ellen Foberg

Ellen L. Foberg, Chairman

Leonard J. Laffond
