Board of Health
Meeting Minutes
March 13, 2001

Present: Mary Jo Phelps, Ellen L. Foberg, Geoffrey N. Bagley, and Melissa S. Quinn

The meeting was called to order at 8:30 PM. Also present was Building Inspector William Foster.

Chairman Phelps read two letters from Steven Bell, Health Agent for the Community Health Program, relative to a building permit application for the Riggan property at 163 Leshure Road. He advised (and Health Agent Sharon White concurred via telephone) that a Title 5 inspection would be needed to determine that the system is adequate and functioning properly prior to issuance of a building permit. Copies of the letters will be sent to Mr. Riggan.

The Board received a notification from DEP that Yankee Atomic Electric Company is requesting that the public water supply for the Visitors Center be put on an inactive status. The Selectmen signed a form to be returned to DEP indicating their approval.

Property owner Russell Jolly contacted Chairman Phelps to ask if he could be issued a septic system installers license so that he could install a system at their home on Stone Road. Chairman Phelps will discuss this matter with DEP and report back at a later meeting.

A SARA Title III, Tier II report was received for Massachusetts Electric Company. (See file.)

Respectfully submitted,
Melissa S. Quinn, Administrative Assistant

Approved:

Mary Jo Phelps, Chairman

Ellen L. Foberg

Geoffrey N. Bagley
