

Board of Health
Meeting Minutes
September 17, 1985

Present: G. Riggan, T. Snyder, E. Foberg, M. Morse

Mr. Girard, new owner of property on the lake, requested permission for a percolation test in order to repair his present leach field. After some discussion Mr. Riggan called Mr. Girard back and explained that if the well was contaminated special arrangements could be made, but not if the field is working at the present time. Mr. Girard said the well was not contaminated at this time and agreed to delay until the spring.

Respectfully submitted,

Marjorie Morse, Clerk

Approved:

Timothy C. Snyder
George A. Riggan
