Board of Health
Meeting Minutes
June 15, 1993

Present: Ellen Foberg, Leonard Laffond, James O'Brien, Melissa Quinn

The meeting was called to order at 9:05 P.M.

It was voted unanimously to approve a contract with Richard Jenkins, d/b/a Economy Haulage for the hauling and disposal of white goods, tires and scrap metal for fiscal year 1994.

Chairman Foberg reported that a percolation test will be conducted at 9:00 A.M. on June 25th on the property of Richard and Jacqueline Howe on Newell Cross Road due to a failed septic system.

Ms. Quinn was instructed to send a memo to the Rowe Camp and Conference Center informing them that in accordance with state law, owners of all dogs entering the state of Massachusetts must present evidence of a current rabies vaccination for their pet. All residents of Massachusetts owning dogs must present evidence of both a current rabies vaccination and a license for their dog.

Steven Arnold (Tunnel Road) contacted the Chairman relative to upgrading the septic tank on his property. He currently has a 500 gallon tank. Ms. Foberg checked with DEP and was informed that the property owner must first inspect and determine the location and condition of his leach field (or hire an engineer to do so). It was noted that a new version of Title V is due shortly, and Mr. Arnold opted to wait until this is available before doing any work on his system.

It was noted that in regard to the Daneker "tight tank" as reported in minutes from June 8th, the local Board of Health has no obligation to permit year around use, and may put in any reasonable stipulations for use that they choose.

A letter from Evelyn Soule (Sibley Road) regarding the town nursing position was read. Ms. Quinn was directed to invite Mrs. Soule to the next meeting of the Board to discuss the issue in person.

Percolation tests were conducted May 25 with the following results:

| | | |
|---|---|---|
| Bradley, Rebecca<br>Middletown Hill Road | Map 2, Lot 12 | Passed |
| Dunnell, Paul<br>Leshure Road | Map 11, Lot 36 | Passed |

Both of these tests were for existing homes to up-grade their systems.

Water test results were received for the Rowe School, both coliform

and VOCs (Volatile Organic Chemicals). All test results were satisfactory. (see file)

It was the consensus to order the flu vaccine for the fall flu clinic and determine who would administer the shots at a later time.

The meeting adjourned at 10:00 P.M.

Respectfully submitted,
Melissa S. Quinn, Administrative Assistant

Approved:

Ellen L. Foberg, Chairman

Leonard J. Laffond

James E. O'Brien
