PERMITS/PUMPING/FRCOG

Glen was here for is last meeting and introduced his replacement Andrea Crete. She will be doing the food inspections for vendors for Old Home Day.

Glen reviewed the water test on the Bailey property on Brittingham Hill. The iron levels were too high and he recommended they run the water a lot during construction and have it retested. If the iron levels stay that high he will give a conditional approval and a filtration system will have to be installed.

There will be inspections done at the Camp and Shantigar on June 25th. Maggie Rice will be going with Glen Ayers. Letters were sent to both places to expect their visits.

A repair perc test was conducted on Monday, June 17 at 9 Pine Hill Drive.

A Title V was done at 19/21 Pelham Dr. The septic passed, they are waiting on the water testing.

Glen and Maggie met with Tom Danek and Doug MacLeay to discuss the repair on the system at 5 Pine Hill Dr. Glen delivered a copy of the revised plan with additional information and it was also attached to the permit on line. He believes if the drainage ditch is beefed up it will resolve the water issue. He will contact Tom Danek about the fix. Any further complaints will require unrefuted information but he sees no reason to withhold the COC.

WATER TESTING

Water testing for the Beach was reviewed. All okay. Joanne will get a copy of the Bathing Beach Regulations from the MA DPH for the next meeting. Sean Loomis will also be contacted about the Bathing Beach Permit.
