**PERMITS/PUMPING/FRCOG**

The Title V for 43 Potter Rd. was discussed. It passed with reservations from Andrea Crete of FRCOG. After review of the findings the Board voted to fail the property.

Maggie had a discussion with Andrea Crete at her last perc test about the viability of plans and inspections after a certain number of years. A Title V inspection is good for 2 years. Plans for a new system are only good for 3 years. The plans and testing for 19 & 23 Pelham Drive are no longer valid. An email will be sent to John Duprus as he is the engineer on this system.

A policy for information to prospective buyers was discussed due to the number of requests the office has received. It was decided the simple forms will be shared with the realtor listing a property but if prints need to be seen they will have to come to the office.

**WATER TESTING**

Water testing for the Beach was reviewed. All okay.

**NEW BUSINESS**

Next year's dump stickers and fees was brought up and was tabled until the next meeting.
